Skippering a bareboat charter requires experience and practical knowledge. The safety of your crew and the yacht depends upon your ability. For your protection as well as that of your crew, and for the safety of our yachts, it is important that our charterers be well qualified. We determine this by ASA or US SAILING Certification. In lieu of certification we carefully review the resume of the designated skipper. We're looking for several years of well-rounded sailing experience and familiarity with boats of the approximate size you intend to charter. Practical knowledge and experience with reefing, navigation, and anchoring are essential.

Spinnaker Sailing reserves the right to require an on-water checkout or to place a skipper aboard at the charterer's expense if we feel the situation warrants it.

This resume will assist us in determining your qualifications to charter with us. Please complete the resume and return it to us. If necessary, please attach a separate page.
